DETAILED ACTION

Response to Arguments

Applicant's arguments, see page 1, second paragraph, filed December 2, 2004, with respect to claim 1, have been fully considered and are persuasive. The rejection of claims 1-3, 5, 7, 10-12, 14 and 16 has been withdrawn.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: As set forth by the Applicant's representative in the remarks filed December 2, 2004, the prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches a projection optical system comprising multiple prisms wherein the input light is reflected at least six times before exiting the system, the prior art fails to teach such a system wherein no intermediate image is formed between the input refracting surface and the exit refracting surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
